

Wayne County Schools COVID Case Procedure and Tracking

The West Virginia Department of Education collaborated with the West Virginia Department of Health & Human Resources to develop a guidance for all counties on how to respond to a positive case or cases in West Virginia schools.

Each time there is a confirmed positive case in a Wayne County School, we will notify the affected classroom or group.

To increase transparency, we will also be posting information (school of confirmed positive individual, date of confirmed positive notification, number of confirmed active positive cases at school, whether the school is open/closed) about confirmed positive cases in our schools. This page will be updated each afternoon.

Please refer to the guidance link above if you have questions about the process. Wayne County Schools works with the local Wayne County Health Department in the handling of each positive case. The Wayne County Health Department contacts individuals who may have been exposed to a positive through their contact tracing process.

Report beginning September 21, 2020.

ACTIVE CASES ARE NOT RECORDED HERE UNTIL CONFIRMED BY THE HEALTH DEPARTMENT.

School Name	Date of Confirmed Positive Notification	Number of Active Cases (Students or Staff Members Attending School In Person)	Cohort Group or Close Contacts Notified?	School Open or Closed?	Number of Active Cases for Virtual Students (Students who do not physically attend school)
